

# Ape Coloring Pages for Kids

## Ape Coloring Pages

Apes are primate species that are found in all sizes and shapes. From the legendary Gorilla and the Chimpanzee, Orangutan and Bonobos even humans are as apes! We share about 98 percent of our DNA with the Apes. Chimpanzees are even carrying the same blood type as us. If you're studying the apes, or simply have a an interest in animals and its inhabitants, why not colour them. You can download all our [coloring pages](#) at no cost. Print them and give them to yourself in your own distinctive style.
