Saving my money

[Coloring Pages](#) on Money will be the very first step for children into the fascinating and complex financial world. Money is the only method through which people across the globe evaluate the worth of both goods and services. Prior to the invention to money, individuals negotiated with one another by trading one item for another. For calculation purposes fur and skins of animals cattle, salt as well as cocoa shells and stones were utilized. Then, people began to trade goods in exchange with precious metal bars such as silver, gold and copper. In time, they started to stamp the metal, and later minted coins, and later cash in the form of paper that was used by the modern world appeared. Here, you can download and print coloring pages of money at no cost, that kids will enjoy coloring.
